Elizabeth Eisenhauer

eisenhauer@psu.edu

Research interests: environmental statistics, animal movement

EDUCATION

The Pennsylvania State University, State College, PA

Doctorate of Philosophy (post-candidacy), Statistics, August 2017 – present

- Distinguished Graduate Fellow, August 2017 May 2018
- Vollmer-Kleckner Scholarship in Science, August 2018 May 2019
- Statistics Department Climate and Diversity Committee, October 2019 present

The College of New Jersey (TCNJ), Ewing, NJ

Bachelor of Arts, Mathematics with Statistics specialization, August 2013 – May 2017

- Magna cum laude
- Departmental Honors
- Phi Beta Kappa Honors Society
- Pi Mu Epsilon Mathematics Honors Society
- President of TCNJ Environmental Club
- Vice President and co-founder of TCNJ Veg Life Club

RESEARCH

Graduate Research, Department of Statistics, The Pennsylvania State University, State College, PA June 2018 – present

Advisor: Dr. Ephraim Hanks

- Project description: Developed a novel sampling design called lattice and random intermediate points (LARI) for animal movement data which combines samples at regular and random time points to improve parameter estimation accuracy. Compared LARI and regular sampling on a carpenter ant dataset, a guppy dataset and in a simulated example. Performed comparisons using a stochastic differential equation framework updated to allow for irregular samples.
- Eisenhauer, Elizabeth, and Ephraim Hanks. "A lattice and random intermediate point sampling design for animal movement." *Environmetrics* (2019).

Undergraduate Honors Research, Department of Mathematics, TCNJ, Ewing, NJ

June 2016 – May 2017

Advisor: Dr. Michael Ochs

 Project description: Creation of structural equations and graphical models to understand the limits of learnability of cell signaling networks based on high-throughput biological measurements with a focus on cell signaling networks in head and neck squamous cell carcinoma

TEACHING EXPERIENCE

Instructor for World Campus STAT 200: Elementary Statistics, Penn State University, State College, PA

Summer 2020

Instructor for STAT/MATH 318: Elementary Probability, Penn State University, State College, PA Fall 2019 and Spring 2020

Graduate Student Online Teaching Certification, Penn State University, State College, PA May 2019

Lab instructor for STAT 200: Elementary Statistics, Department of Statistics, Penn State University, State College, PA

Fall 2018

- Led introductory statistics labs with 60-80 undergraduate students
- Held weekly office hours

PROFESSIONAL EXPERIENCE

Graphic Designer, TCNJ Office of Student Activities, Ewing, NJ

September 2014 – May 2016

- Consulted with faculty and student organizations on how best to meet their design goals
- Completed individual graphic design projects and packages (logos, posters, t-shirt designs, and murals)

Operations Intern, TerraCycle, Inc., Trenton, NJ

December 2015 - April 2016

- Analysis of shipping operations through manipulation of Excel spreadsheets
- Improvement of zero-waste office collection program

Statistics Project Manager, The Rainbird Foundation, Madison, WI

December 2014 – October 2015

Compilation of child abuse data from across the United States

PROFESSIONAL DEVELOPMENT

INVITED PRESENTATIONS

2020 Penn State Probability and Financial Mathematics Seminar, May 2020. Topic: Modeling COVID-19 with an SIR model accounting for temperature.

2020 Muhlenberg College Math/CS Colloquium Series, January 2020. Topic: A lattice and random intermediate point sampling design for animal movement.

2020 Penn State Statistics Department SMAC Talk, January 2020. Topic: A lattice and random intermediate point sampling design for animal movement.

2019 Hawk Mountain Sanctuary Seminar, October 2019. Topic: Sampling and Modeling Animal Movement.

CONTRIBUTED PRESENTATIONS

2020 virtual International Statistical Ecology Conference (vISEC), June 2020. Topic: A lattice and random intermediate point sampling design for animal movement.

2019 Joint Statistical Meeting (JSM), August 2019. Topic: An irregular sampling design for animal movement.

POSTER PRESENTATIONS

2020 Symposium on Data Science and Statistics, June 2020. Topic: A lattice and random intermediate point sampling design for animal movement. (SDSS Student & Early Career Funding Award)

2019 Rao Prize Conference, May 2019. Topic: Comparing sampling designs for carpenter ant movement data.

2018 American Statistical Association's Statistics for the Environment (ENVR) Workshop, October 2018. Topic: Optimal sampling schemes for animal movement modeling. (Travel funding by NSF grant)

2017 TCNJ Celebration of Student Achievement Poster Session, May 2017. Topic: Structural equation modeling of protein signaling networks in Head and Neck Squamous Cell Carcinoma. **2017 Eastern North American Region (ENAR) International Biometric Society Spring Meeting**, March 2017. Topic: Structural equation modeling of protein signaling networks in Head and Neck Squamous Cell Carcinoma.

2016 TCNJ Mentored Undergraduate Summer Experience Poster Session, September 2016. Topic: Structural equation modeling of protein signaling networks in Head and Neck Squamous Cell Carcinoma.

OTHER WORKSHOPS AND CONFERENCES

2020 Electronic Conference on Teaching Statistics (eCOTS), May 2020.
2020 Preparing for Careers in Teaching Statistics and Data Science Workshop, May 2020.
2019 STATMOS Spatial Statistics Workshop, September 2019. (Travel funding by STATMOS grant)
2019 United States Conference on Teaching Statistics, May 2019.
2017 5th Annual Summer School on Sustainable Climate Risk Management, July 2017.
